Have you ever received a Reiki Healing prior to your visit here?

Please offer a brief summary of what you're hoping to experience today:

\*I understand that the Reiki healing I will receive today is for the purpose of relieving stress, and to promote relaxation.

I very clearly understand that a Reiki healing does not substitute for medical or psychological diagnosis and or as treatment of the fore mentioned.

Reiki practitioners do not diagnose conditions, nor do they perform medical treatment, nor do they prescribe medication or supplements. A Reiki practitioner will never interfere with the treatment of a licensed medical professional. It is recommended that you seek a medical professional for any physical or psychological ailment you may have.
